The Evolution of Motorcycle Security

ROADLOKTM
MOTORCYCLE IMMOBILIZATION DEVICE

MOTORCYCLE LOCKING SYSTEMS by ROADLOK® Application guide 2007

RoadLoK Security has engineered motorcycle locking systems for Harley-Davidson® motorcycles and Sport Bikes in collaboration with some of the best names in the business!

The **RoadLoK® HD2™** and **HD3™** are caliper-based locking systems made exclusively by Hawg Halters, Inc--the leader in show-quality H-D components.

The **RoadLoK® Defender™** is a bracket-based locking system engineered to be compatible with your stock Harley® caliper. Fast & easy installation - no modification!

The **RoadLok® Arachnid™** are a precision engineered series of direct replacement rear caliper mounts incorporating the RoadLok locking system for the demanding Sport Bike Market.

The **RoadLok® Motorcycle Immobilization Devices (MID)** are the only motorcycle locks on the market today that **CANNOT** damage the motorcycle that it is protecting.

Limited Lifetime Warranty

All mounting hardware included

100% AMERICAN MADE

Available in Chrome, Black Anodize, Clear Anodize, and Polished Aluminum

Since the RoadLoK is hard-mounted to the fork of your Harley-Davidson® it allows ZERO movement when it's engaged meaning you'll never damage your motorcycle if you forget to unlock the system before riding. Another great benefit is that you'll never need to clear out your bags to store the RoadLoK while you're riding, because it's already stored when not in-use!
